SHORTENED STATUTORY PERIOD OF RESPONSE	MAIL DATE		DELIVERY MODE	
3 MONTHS	04/02/2007		PAPER	

Please find below and/or attached an Office communication concerning this application or proceeding.

If NO period for reply is specified above, the maximum statutory period will apply and will expire 6 MONTHS from the mailing date of this communication.

Office Action Summary	Application No.	Applicant(s)
	10/049,454	BRUN, ANDREAS
	Examiner	Art Unit
	Michael Trettel	3673

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on 20 April 2006.
- 2a) This action is FINAL. 2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) Claim(s) 1-16 is/are pending in the application.
 - 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) Claim(s) _____ is/are allowed.
- 6) Claim(s) 1-16 is/are rejected.
- 7) Claim(s) _____ is/are objected to.
- 8) Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) The specification is objected to by the Examiner.
- 10) The drawing(s) filed on _____ is/are: a) accepted or b) objected to by the Examiner.
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) All b) Some * c) None of:
 1. Certified copies of the priority documents have been received.
 2. Certified copies of the priority documents have been received in Application No. _____.
 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the all of the differing types of fusion or attachment set forth in claims 2 and 3 and the differing types of attachment set forth in claims 4-7, and the construction of claim 16 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The amendment filed 02/12/2002 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the inner welded or bonded folds of the outer shell of claim 2, the inserted edge of the dividing wall into either a welded or bonded S-fold of the outer shell of claim 2, the attachment by weaving, knitting, interfolding, overlapping, stitching, riveting, transitioning, or vulcanizing of claim 3, the snap, tie or hook and loop fastener strip of claim 5, the waterproof outer flap attached by sewing, weaving, knitting, interfolding, overlapping, stapling, riveting, and vulcanizing of claim 6, the waterproof seam of claim 6, the plurality of elasticized folds of claim 7, the impregnated thermoplastic material of claims 8 and 10, the coarsely woven mesh material, heat fused random-fiber material, solid sheet material, and perforated sheet material of claim 12, the natural fiber batting of claim 15, and the entire contents of claims 16.

Applicant is required to cancel the new matter in the reply to this Office Action.

The applicant can not rely upon the fact that the amended claims were filed concurrently with the US filing date of 02/12/2002 to overcome this objection. This application is based upon a Rule 371 application pending from PCT/IB00/01295 which has a filing date of 08/02/2000, as shown by the priority papers present in the file. This application is essentially a continuation of the earlier PCT application and has a priority date in common based upon the 08/02/2000 filing date. Since the amendment of 02/12/2002 postdates the effective filing date of 08/02/2000 any subject matter within it which is not explicitly supported by the PCT application is new matter.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 2, 3, and 5-16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection based upon the objection to the specification set forth above.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 8-13, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Kikuchi et al (US 5,483,713). Kikuchi et al shows a seamless quilt construction 40 of particular interest. The quilt comprises an upper and lower layers 22, 23 of textile material which are attached to one another by an edge binding 30. Baffle formed by partition walls 41 are attached

between the upper and lower layers 22, 23 and serve to divide the interior of the quilt into filling compartments. Each wall is formed by two segments 41a, 41c attached by sewing 45 along a midline, with reinforcing strips 42a, 42b being sewn to the ends 41b, 41d of the wall. The binding strip has an adhesive coating applied to the side that engages the upper and lower layer of the quilt, with the adhesive being fixed by a heat application. Note the materials specified in column 5, lines 3-36 for use in the quilt. Layer 23 can be considered as forming an inner shell of a sleeping bag, while layer 22 can be considered to form an outer shell of the bag.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sellers et al (US 3,837,021), Lap (US 6,754,918), and Lap et al (US 7,094,714) show sleeping bags of particular interest.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Trettel whose telephone number is (571) 272-7052. The examiner can normally be reached on Monday, Tuesday, Thursday, or Friday from 7.30 am to 5.00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patricia Engle, can be reached on (571) 272-6660. The fax phone number for the organization where this application or proceeding is assigned is (571)-273-8300.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1113.
